The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood; To avoid them, keep it pure!!

That PRINCIPLE in which exposes the human frame to the [illegible] and virulence of every class of disorders proceeds directly or indirectly from the [illegible] state of the system caused by

IMPURE BLOOD.

HAFSTY'S SUGAR COATED MAGIC LIFE PILLS The originator of the above celebrated Pills most respectfully informs the enlightened public that this new and elegant preparation can be obtained only of Sanford vertise agents and their copies of est ishment No 523 Broadway New York —Price 25 cents a single box, 5 boxes for one dollar

For Sale by G W LADD Agent Bangor

Among the numerous remedies which [illegible] put before the American [illegible] name, is one perhaps which has acquired so great necessity, and [illegible] ever been known as this Sarsaparilla article —They have gained their high reputation alone by their good works Those who once try them always use them again They are grateful to the stomach — they improve the functions of secretion nutrition and circulation They restore the [illegible] and quicken and create a natural warmth in every which flows through the whole system, giving great vitality and animation The extraordinary [illegible] attest to their good effects in a short time the [illegible] certificates of [illegible] all disagreeable symptoms vanish the entire system [illegible] is restored to its perfect functions, the body [illegible] and the complexion [illegible] a clear and [illegible] departs, and the body [illegible] with renewed strength and vigor [illegible] results of moral virtue and [illegible] the buildest system most [illegible] consumption of the class in use

[illegible] BILIOUS complaints, Dyspepsia, Indigestion, Costiveness, Diseases of the Stomach they [illegible] other disorders of the system which they [illegible] the most happy results Sores, Boils Salt Rheum, Tetter Erysipelas, Eruptions of the Skin Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks according to the directions which accompany the bottles have [illegible] perfect cures of the *most virulent affections* [illegible] *Good Medicine for Bad Blood* Bottles of the boasted Sarsaparilla, contain [illegible] of the true virtues of that valuable plant and are less effectual than a single box of these extraordinary Pills In Colds Coughs, Influenza, Sore Throat Headache Deafness &c, they are recommended with entire confidence. the relief in these cases is quick and permanent Both Fever and Ague Fever Asthma Piles Loss of Appetite, Dropsy, Jaundice, Worms Tenderness general Debility, and many of the various other diseases to which the human system is liable they have proved a [illegible] remedy Their action on the bowels is of the mildest character, even *one dozen* never cause griping or unpleasantness yet they are searching and effectual It is impossible by words to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class a trial only will explain the wide difference The unhappy invalid after having [illegible] hope a *single box* of them will with joy for the unexampled cures he has wrought in his behalf bear testimony to their uncommon virtues

N B The *coating* of *sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, outweighs all their merits stand pre-eminent and notwithstanding this, they are the original sugar coated pills The proprietor made this valuable improvement to preserve their great virtues entire as well as to render them pleasant to the taste, as unthinking individuals have counterfeited other pills coated them and thrown it the public as pills pretension to patent and distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Hafsty's Sugar coated Pills* In order to get the true and original sugar coated pills see that the engraved signature [illegible] Hafsty upon the label of each box and buy only of above named agents

RUST PROOF IRON,

FOR
ROOFING WINDOW SHUTTERS, &c

THE subscribers beg to call the attention of all those interested in roofing to their GALVANIZED TIN PLATES and to the many advantages which they possess over all metallic and other substances hitherto used for this purpose possessing as they do, the strength and lightness of iron without its liability to rust having now been tested several years, and in this country and in Europe they are so [illegible] as to [illegible] a sufficient criterion from sudden changes of the atmosphere than copper tin Pipe Iron, Zinc &c or any other metal now used for roofing, and consequently form a much better and tighter roof requiring far less frequent repair whilst the first cost is but a trifle more

The subscribers would also call the attention of all dealers and workers in metals to the many other purposes to which Iron thus prepared can be applied In general terms it is applicable to all articles of iron which it is desirable to protect from the action of the atmosphere. And they would especially call the attention of those interested in TELEGRAPHIC WIRES to their Galvanized Wire which is now almost entirely used in Europe and which answers every purpose as a conductor of electricity, costing only about one half as much as copper and possessing equal durability with that metal

Having lately erected works in this city for the purpose of galvanizing Nails Spikes Bolts Wire &c, they will be able to furnish any article which may be required [illegible] on short notice

THURSDAY, MAY 13, 1847.

The city authorities of New York set Saturday last as a day of mourning fo those who have fallen in the present contest This is appropriate There have been rejoicings at the success of our arms but for all Americn citizens to turn weep for the dead It is meet for the character of this war so far in which our country has ever been a war of aggression carried on in a conflict with only slight civil d sension which every advance of our sentinel to the liberty, prosperity of our people, but to gratify an unholy ambition Well may ourselves people their sympathies with the thousands who mourn the loss of relatives and friends, who have early fallen victims

Later From Mexico

Capture of Tuspan by Com. Perry.

The N Y Tribune and Herald have received by exclusive express, from the South later advices brought by the transport schooner Gen Patterson, at New Orleans

The Gen Patterson fell in with Com Perry s squadron on its return from the Tuspan expedition, on the 2—th ult, twenty five miles north of Vera Cruz

She was boarded by an officer from the United States steamer Scorpion, who placed letters in the hands of Capt Jackson and informed him that on the 19th ult Tuspan had been taken after a fierce and determined opposition on the part of the Mexican troops

The Mexicans after a desperate struggle, finding that a twill tending the most strenuous exertions, all resistance would be in vain spiked all the guns, and left the defenses of the place, and their abandonment

In the engagement four men were killed, and fourteen were wounded on our side, among whom were four officers viz Capt Tatnall slightly Lieut Parker severely, Lieut Hart severely and Midshipman Pownder, both slightly

Sch Shields was still above at last accounts, but was expected she could get survive

Capt Hodgson of the Tuspan pilot boat engineers remained in a very critical state

Gen Davis was wounded in not se ious

The Mexican officers on the way to the United States were sent over to the castle of San Juan de Ulloa, on the 21st ult They were in fine spirits

Sergt Tucker, of the 2d dragoons was shot and wounded in the head while riding an express from Gen Scott to Vera Cruz, on the 20th ult

The enemy s loss in killed and wounded was about equal to ours Thirty brass cannon and large quantities of ammunition were taken — Mexican officers admit that Santa Anna had eight thousand men in the field, and six thousand out to the entrenchments The attribute their defeat to the cowardice of the troops of Santa Anna

Advices from the city of Mexico state that Gomez Farias has been removed from power, a bill having passed Congress 1 to 3 in favor of suppressing the Vice Presidency of the Republic

Extraordinary powers have been granted to Santa Anna to leave the Capital, on the day of his departure Pedro Amaya was chosen to the office, receiving 60 votes to A monte

Gen Scott and entered on the duties as Commander on the 3d April A proclamation was issued on the propriety of forming the Capital and government in order to bring work to be commenced forthwith Santa Anna had published assets his constitution and to Congress the remedies this force and determination to visit the city and the country and excludes the thing of peace

A Guerilla warfare and attacks on convoys are now going on by the leading members of the Mexican Congress

The Union, city of Saturday says Gen Scotts despatches received to the battle of Cerro Gordo Thirty thousand Mexican prisoners were taken, exclusive of the officers, whilst Santa Anna and seven thousand succeeded in effecting his escape

Our loss in killed and wounded is estimated in Gen Scott s despatches at 250 The Mexican loss on the field was 350 which was increased by the pursuit which is still going on

Of the opposition was expected this side of Perote

Ex President Herrera, and the other three Mexican Generals, with the exception of the officers who were taken prisoners, have been discharged by Gen Scott upon the parole of honor and departed for Jalapa Gen La Vega refuses to accept the parole, and is to be sent to the United States

The Mexican Infantry, who fought so well at Buena Vista and all the regular and militia were present, several officers included Gen Scott, at the capitulation of Vera Cruz without parole as the count of their gallantry were found among the killed and wounded

Arrest of an American Ship-Captain and his Boat's Crew.

Mr Jeffrey superintending the building Perfect Capt Gardner, from Tampico was indicted for the following It was stated by a passenger on board who was from San Blas and who is extradited the facts

The whale ship Montezuma Capt Hadley arrived at San Blas from Upper California in the last March Three Mexican officers were passengers on board One of the officers Narvaez had been for many years captain of the Port of Monterey, in California

Capt Hadley at the instance of Narvaez, took him ashore to his home Immediately on his landing at the high Capt Hadley, his crew of nine men and Senor Narvaez, were immediately made prisoners by the Mexican authorities of the place

The ship lay off and on for several days expecting the return of their captain and boat's crew and at last set sail and went to the Cape and cruised there for some time, and were finally sent to Tepic, where they arrived on the 10th of March

They were there confined till the fifteenth when they were set at liberty a white man is not stated They left for San Blas, where they expected to get on board a Spanish barque which was to sail for Guayaquil, from whence they expected to get a conveyance to Valparaiso to join their ship

[From the Whig and Courier]

One of the editors says many men sets out to suffer of abuses he should be sure that abuses exist and that is not enough to Well it came in what he suggested F says that in the report of Supt of Common Schools the number of scholars between the ages of 4 and 21 a statement he took the correct statement one say 46[illegible] hundred believe me this is the number set down One of the Committee says it should be 3744, I cannot say but this is correct, I referred to the report for my statement Then I took out the salaries paid the teachers of the high schools this then left $1,78 for each scholar, this multiplied by the number of scholars gave the amount belonging to each district, according to the number of scholars contained therein But one of the committee says F ought to have taken out $350 granted by the City Council to district No 1 The argument is, then, they are not entitled to their proportion of this money for the City Council granted it to district No 1 and they had a right to Then it might be said by the same way of reasoning that the Superintending School Committee took $1,462 for the high schools, and truly he had no right to Now are no those districts wronged out of what is justly due them, as much, if taken by the City government as it might had been taken by the Committee But I very much doubt the right of the Council to tax the whole city to raise money to be expended for the benefit of on part of the city, to the exclusion of the other I happen to have the Revised Statutes and the Bible, and (being nothing but a farmer) I do not find the authority in the one, or the principle recognized in the other But I do find if any town shall raise more money than is required in the 17th chapter and 16th section of the Revised Statutes that it may be submitted among the several districts as the town may determine

It seems to me that it ought not to be inferred from the above language that a town has the right to raise money or one district and exclude all the rest, he then does it seem to be in unison with the golden rule He further says he once stands that F insists that every scholar should draw his equal share of the whole school money This he thinks very absurd, as regards the cross in the compact part of the city

I agree with one of the Committee, as to those that are situated as remote from the compact part of the city as not to receive any benefit from the reading of the schools, I do think they should receive their proportion according to the number of scholars He also states that the assertion made by F that 40 cents was taken from every scholar to support the high schools, is without any foundation, for the reason that the City raises four times as much for the support of the common schools, as the law requires to such, by the way, I believe is not correct) Now will the public be satisfied with such declarations? For if the city has increased so much in population since the census has been taken, in which the law requires it to be governed in raising money for the support of schools, that it has become necessary to raise four times the legal amount, is that any reason that it shall not be distributed equally? If it is then see turned on which side of the Kennebec we are the most voters, then let the majority give those on the opposite side, what the law requires and appropriate the balance to themselves, what reason would they have to complain, for in truth they receive a such as the majority are compelled by law, to give them I can truly say this city is the first instance that ever came to my knowledge of taxing a whole town or city, to support the schools generally, in one part to the exclusion of the other

But I us look to the facts, which, I believe to be simply these, that there has been $7 920, 43 expended for schools the last year, and that there is 3 744 scholars between the age of 4 and 21 The question is, then, how should this money have been expended in order to give every school scholar his just due Shall we take $1 462 out for the high schools, then let the scholars attending the high schools, after they have been well provided for, draw about $300 for the support of the primary schools within the district in which they reside and in addition to that if the select and primary schools in the compact part of the city, should not have money enough to extend them to 42 weeks, just let the City Council grant it, or should the balance of the money, after deducting for the high schools be distributed accordingly to the number of scholars, I refer to those districts where they are so situated that they cannot be graded and as for the one sixth tore of the Committee this cannot well attend the high school would it not be just and equitable for those to receive a little addition, for the reason that they are not be united by the high school—let the public be their own judges

Sympathy with Misfortune.

Sympathy with the misfortunes of our race, is a natural impulse of the human heart, a support and solace to the afflicted, and a redeeming trait in degenerate humanity In most civilized communities, especially in the United States, the individual of even moderate mind and worth, and of very limited disposition and ability to be useful to the public, who has the sad fate to loose the use of a limb, or otherwise become a permanent cripple, more particularly if in needy circumstances, is generally looked out for in the distribution of public and private patronage—and the berth best suited to his capacity and condition, cheerfully assigned to him, with almost a unanimous voice of the individual has only been a good and useful citizen, some public station in the town county, state, or nation, or some special position of profit and benefit among private citizens, usually allotted to such an unfortunate person resident in a community possessed of the ordinary equity and sympathy belonging to cultivated humanity Nothing, perhaps, more fully despeaks the grovelling selfishness, the vulgar insensibility, and the brutal inhumanity of an individual or a community, than the perpetual neglect and insult offered to the unfortunate of unconteste ble ability and worth Well disposed persons, possessed of the ordinary sympathies of a just and enlightened philanthropy, usually vie with each other in generous endeavors to favor a fellow mortal who is doomed to perpetual, personal suffering

It is upon this laudable, God like principle of human sympathy, that the communities of different sections of our country have, at various times, sympathised with, and aided the unfortunate sufferers in other portions of the Union, who suffering from some local calamity And it was this principle, this generous impulse of man's nobler nature which some twenty years since, sent supplies from our happy and prosperous shores, to the poor and suffering Greeks—and which has more recently sent food, clothing, and comfort to perishing thousands of the Emerald Isle These are scenes upon which angels, and congenial spirits upon earth, may well delight to linger and partake, as of a foretaste of a purer and better world

---

THE OTHER SIDE

And yet there are men and communities in moral and benevolent New England,—half crazy, for large churches, meeting houses, benevolent societies, and political and sectarian parties who instead of practising upon this heaven born principle of sympathy and charity for their afflicted neighbors, and thus aiding and befriending some of the most unfortunate and deserving of men—have for a long series of years studiously, and persevieringly withheld all patronage from, and done all in their power to wrong, injure, proscribe, and oppress, the very men, who, amidst extraordinary personal and pecuniary misfortunes, have done far more than any others to promote the financial, social, political, and moral interests of these same men and these same communities The whole patronage and influences of the social organization, these social tyrants, these public journal philanthropists, these ungrateful, soul harrowing aristocrats have been to advance the worldly and importance of their old blooded, purse proud associates—and to oppress and break down all the self made, independent minded, and free spoken among the public enterprising, and struggling spirits, who give life and vigor to the intellect of the community

This picture is no fiction—but a graphic description of real life—and can be proved every hour in the day But this reproach upon the men and the communities which transact Such a course by any man or community, is wholly unworthy of the age and country in which we live And a very little reflection will convince any intelligent man, that *there must be something wrong in a community*, where such a heart-sickening state of things exists This miserable course tends to perpetuate wealth and power in the hands of a few—to keep down enterprise and worth—and to dry up all the vigorous fertilizing streams of man's nobler sympathies Many are the worthy, but humble and obscure men in our country, who if properly aided by a just and sympathetic community would even not persecuted, would soon place themselves in the front rank of the eminent and useful men of the State But alas! this is the case of *little minds* to envy and despise *greatness* —If the scenes described in the former part of this article were such as good men and rulers might rejoice at the latter is one over which they might well *weep* LEONIDAS

Kind Words do not Cost much.

They never blister the tongue or lips And we have never heard of any man at trouble arising from this quarter

Though they do not cost much, yet they are complish much

1 They help one's own good nature and good will Soft words soften our own soul Angry words are fuel to the flame of wrath, and make it blaze the more fiercely

2 Kind words make other people good natured Cold words freeze people, and hot words burn them, and as caustic words irritate them and bitter words make them bitter, and wrathful words make them wrathful

There is such a rush of all other kinds of words, in our days that it seems desirable to give kind words a chance among them There are warm words, and idle words, and hasty words, and spiritual words, and silly words, and empty words and profane words, and boisterous words, and wise like words

Kind words also produce their own image on men s souls And a beautiful image it is They soothe and quiet and comfort the hearer They shame him out of his sour, morose, unkind feelings We have not yet begun to use kind words in such abundance as they ought to be used —Pascal
